- *Approved*- New Course – HHP 2043 Prevention and Treatment of Athletic and Exercise Related Injuries
- *Approved* - New Course – HHP 4xx2 Applied Exercise Physiology

First & Second Reading

- *Approved* - GEN 1xx2 University College – first and second reading for Fall 2017 Only.

First Reading

- *Approved* - Faculty Senate proposal for limitations on course repeats
 - *Further discussion on this topic is needed.* The Registrar noted that current system limitations do not permit setting a repeat limit on courses within the POISE course file. However, it may be possible to set the online MyHenderson system to prevent registration if a student has taken a course three times (initial registration (+) two repeats). The Registrar will have this discussion with Computer Services. MyHenderson registration restrictions would not however be capable of accommodating varying department specific rules, nor would it be able to catch instances of changed course prefix, course number, or course titles. Faculty need to be aware of these limitations.

****Discussion on definitions of course type was tabled.*
