**Other Discussion:** Concern was raised during the meeting that not all colleges were aware of the opportunity for first and second reading approval at the April 13<sup>th</sup> meeting, or the possibility of a May meeting. The registrar explained the possibility of a May meeting was mentioned only in conversation concerning the moratorium on program changes for the 2021-2022 academic year, but that nothing concrete had been decided. Teachers college and School of Business requested first and second reading on their proposals prior to the April meeting. The committee decided not to meet during May 2021.
