Approved - New Course – GBU 4xx3 Special Topics in Entrepreneurship

- Implementation Fall 2019

Approved - Policy Draft: At December UAC meeting Provost requested Registrar draft a policy reflecting the types of curriculum changes that do not go into effect until the following catalog year.

Draft Policy:

- **New Programs & Program Changes:** Once approved, any new academic programs or changes to existing programs will formally take effect the following academic year. The academic catalog and online degree plans will be updated to correspond with the new academic year.
- **New Courses & Course Changes:** Once approved, any new courses or changes to existing courses may be offered to students during the following academic term. However, such changes will not formally become part of program (major, minor or certificate) requirements until the following academic year. The academic catalog will be updated with approved new courses and course changes at the start of the following academic year.
- **Institutional Degree Requirements:** Once approved, any institutional degree requirements (e.g., general education, math, foreign language, etc.) will formally take effect the following academic year. The academic catalog will be updated to correspond with the new academic year.

Note for Revision: UAC requested additional language indicating when changes require ADHE approval.

Residency Hours for Certificates: UAC has requested the Registrar draft language requiring a minimum of six residency hours for a certificate.
